There would be an employee of Changan US R & D Center in the vehicle at all times it would be on the public roads. The vehicle would not be on the public roads with anyone other than an employee of the Changan R & D Center.

We believe that collecting data to improve the reliability of autonomous vehicle systems is in the public interest. We therefore are requesting a renewal and extension of the temporary exemption for one years, and an expansion of the exemption to permit on road vehicle use. Thank you very much.
